Advazorb

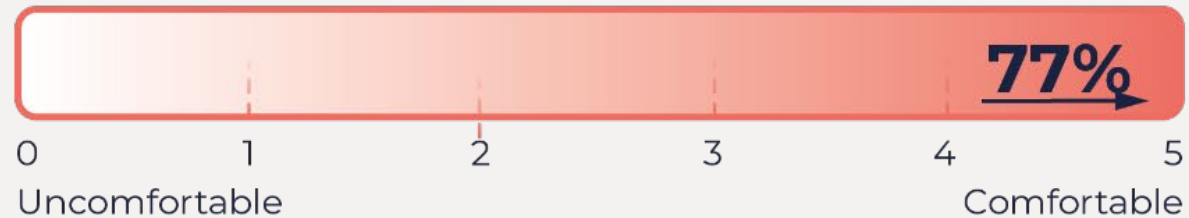

Absorbent Foam Dressings

www.advancis.co.uk

High level of comfort, rated by clinicians

- ✓ Soft, conformable foam for wearable comfort
- ✓ Low friction backing prevents rucking
- ✓ Wide, contoured border for added comfort and security

Over 77% of clinicians rated comfort in use as 4+ on a scale of 1-5.¹

Optimum moisture levels for wound healing

Excellent fluid handling to maintain moist wound healing

High fluid retention: effective under compression

'Lite' versions for low exuding wounds

Premium dressings priced for today's budgets

The financial burden of wound care is well documented and there is growing pressure to do more with less.

Made in the UK to high quality standards, with a high level of supporting evidence.

Priced conservatively with today's wound care budgets in mind.

Advazorb used to treat a venous leg ulcer

Treated with compression therapy, plus **Activon Tulle** for 4 weeks.

Advazorb Silfix used to ensure the wound bed was kept moist and coped with any increase in exudate caused by **Activon Tulle**, rehydrating the wound bed.

Significant reduction in size at 4 weeks with healthy granulation tissue. Fully healed at 8 weeks.

Advazorb used on a diabetic foot ulcer

Highly exuding with extensive maceration to surrounding tissue.

Dressed with **Advazorb** non adherent foam cut to shape to ensure comfort and security.

Significant improvement after 48 hours with surrounding skin maceration resolved. Fully healed at 3 weeks.
