## Eclipse

Super absorbent dressings

### Treat with confidence

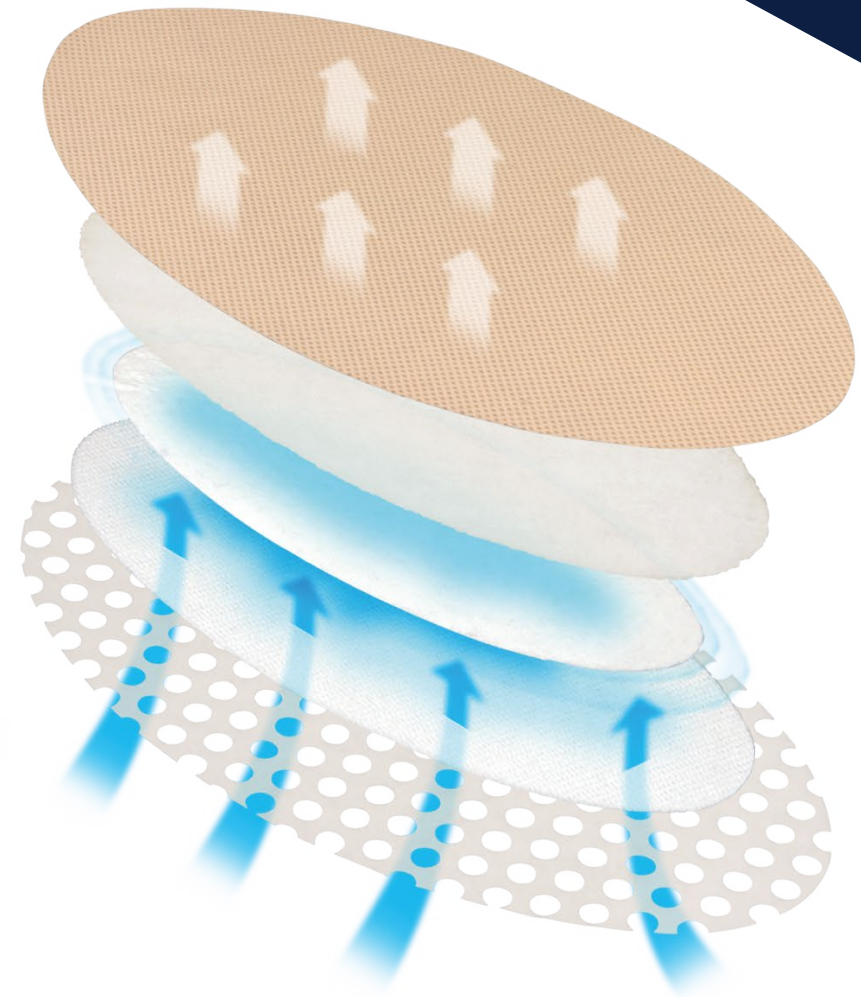

- ✓ Super absorbent
- ✓ Use safely under compression
- ✓ Zero strikethrough
- ✓ With shapes and sizes to suit every patient

## Eclipse has unique CrystaLock Technology

to absorb exudate and lock it in

- ✓ Absorbs exudate and locks it within the dressing
- ✓ Prevents leakage, which helps prevent maceration
- ✓ Locks away bacteria, therefore reducing risk of infections
- ✓ Locks away excess MMPs which cause and prolong chronicity

**Exudate management** is the key priority when managing highly exuding wounds.

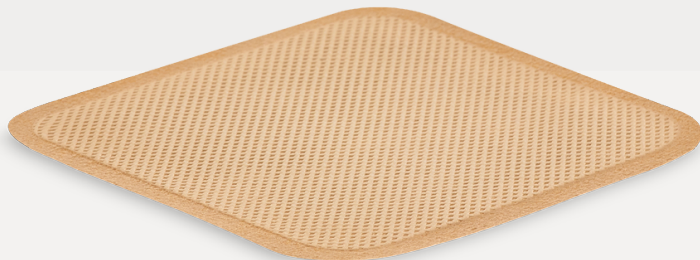

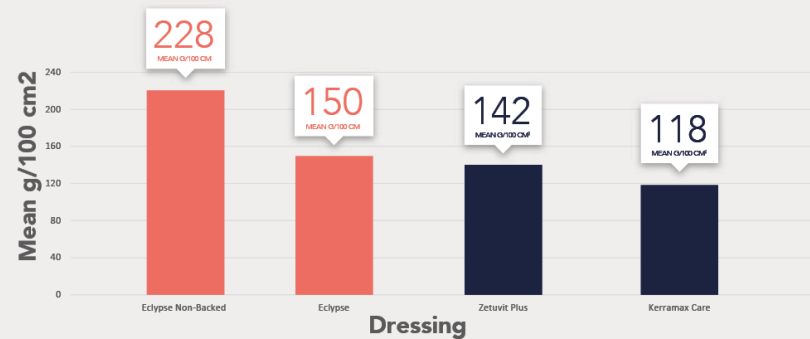

# Why choose Eclipse with CrystaLock Technology?

**Absorbency · Comfort · Confidence**

## Eclipse is highly absorbent<sup>1,2</sup>

Absorbency influences change frequency, risk of maceration and risk of strikethrough.

Eclipse is highly absorbent vs. alternatives

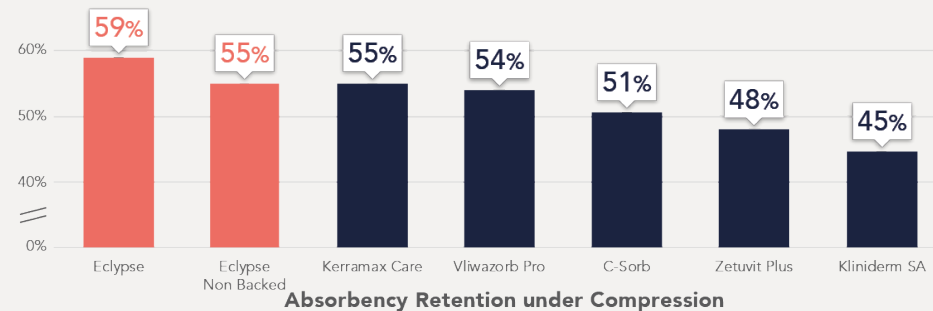

## Eclipse is comfortable<sup>3</sup>

4+ rating on a scale of 1-5 for comfort during use and at dressing change.

## Eclipse is the Superabsorber least affected by the pressure exerted by compression<sup>2,4</sup>

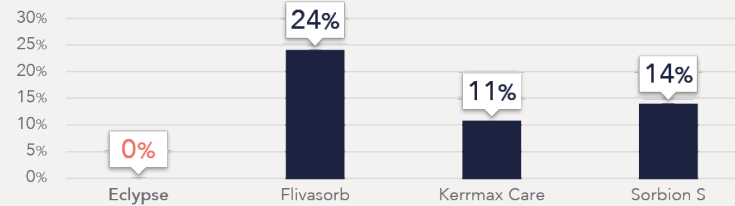

Eclipse retains absorbency capacity under compression.

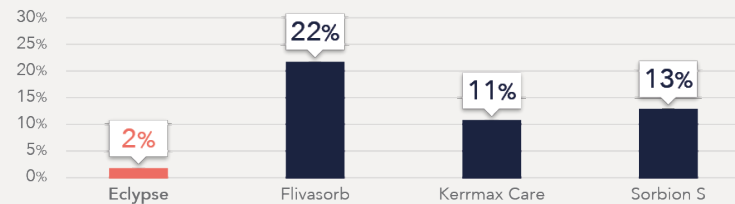

**Absorbency Retention under Compression**

## Eclipse does not affect compression sub-bandage pressure<sup>5</sup>

Mean percentage increase in sub-bandage pressure using 2-layer compression kits

Mean percentage increase in sub-bandage pressure using 4-layer compression

Saves up to  
**50%**  
 Compared to  
 Kerramax 20x22cm\*

\*Drug Tariff pricing July 2024

The choice is clear. There's an **Eclipse Superabsorber** to suit all your needs.

### Looking for high absorbency with zero strikethrough?

Look no further than Eclipse

- Highly absorbent moisture locking system.
- + Zero strikethrough backing to improve patient quality of life and prolonging wearability.

### Looking for maximum absorbency?

Look no further than Eclipse Non-Backed

- Double CrystaLock Technology layer for best-ever absorbency.
- Increased absorbency reduces need for stacking.

And an **unparalleled range** and unique shapes and sizes...

## Eclipse manages exudate to allow healing

## Eclipse Boot is effective on excessively leaking oedema

ADVANCIS

### Patient Profile

#### Patient

63 year old male

#### Wound

Leg ulcer present for 2 months  
Highly exuding

#### Previous Treatment

Daily dressing change with non-adherent pad

#### Treatment Aim

Use of **Eclipse** to manage exudate to allow healing

#### Results

Due to effective exudate management dressing changes reduced:

- Twice a week after 1 week
- Once a week after 2 weeks
- At 4 weeks only a small area of ulceration remained

Presentation

Week 4

#### Patient

Male with history of hypertension, diabetes, obesity and myocardial infarction

#### Wound

Excessively leaking bilateral oedema  
Admitted to hospital

#### Previous Treatment

Frequent visits per day for exudate management

#### Treatment Aim

Use of **Eclipse Boot** and **Eclipse** to manage leakage and reduce nurse visits

#### Results

By day 5 the patient's legs were dry and no longer required any dressings.

Admittance to hospital

Day 5
